School Procedures During Weather Warnings

Aichi Prefectural Ichinomiya Junior High School

Thank you for your continued understanding and support of our educational activities.
The safety of our students is our highest priority. If a Storm Warning, Blizzard Warning, Special Warning, or other emergency warning is issued for either the Owari Western Area or the Owari Eastern Area, the school will respond as follows.

1. When a Storm Warning"Bo-Fu-Keiho" or Snow Storm"Bo-Fu-Setsu-Keiho" Is Issued

Situation	School Response
The warning is lifted by 3:15 p.m.	Classes will be held as usual.
The warning remains in effect after 3:15 p.m.	School will be closed for the day.

Note: Even if the warning is lifted, please do not come to school if it is unsafe to travel due to flooded roads, suspended public transportation, or other hazardous conditions. Please contact the school.

2. When an Evacuation Alert Level 4 or Higher, or a Special Warning, Is Issued Before Students Arrive at School

- Classes will not be held that day.
- Even if the warning is lifted later the same day, classes will not resume.
- Information regarding the resumption of classes or other updates will be provided through the school website and Anshin Mail.

3. When an Evacuation Alert Level 4 or Higher, or a Special Warning, Is Issued After Students Have Arrived at School

- If the school determines that it is safe for students to return home, classes will be suspended and students who are able to return by themselves will go home.
- Students who are picked up by a parent, guardian, or other designated adult will return home once that person arrives.
- Students who cannot return home safely on their own will remain at school, and they will promptly contact their families.
- Depending on weather conditions, transportation conditions, or other circumstances, the school may take alternative measures as necessary.

4. Request to Parents and Guardians

- Please check the latest weather and emergency information through television, radio, the Internet, or other reliable sources when warnings are issued.
- If it is unsafe for the students to travel to or from school, please contact the school and prioritize safety above all else.

Note 1: Alert Level 5 is rarely issued due to a number of reasons, such as municipal authorities being unable to accurately grasp the severity of a disaster.

Note 2: Evacuation Recommendations will no longer be issued. Instead, Evacuation Instructions will be issued.

Note 3: An Alert Level 3 indicates that everyone living in the evacuating area should prepare to evacuate if the Alert Level is raised. People who may have difficulty evacuating quickly or who feel that they are already in danger should proceed to evacuate themselves.

Emergency Safety Measures (Alert Level 5) indicates a life-threatening situation in which you can no longer safely evacuate. Please evacuate before Alert Level 5 is issued.

Evacuation Recommendations will no longer be used. From now on, all residents should evacuate from affected areas when or before Evacuation Instruction (Alert Level 4) is issued.

Elderly people, those with disabilities, and others who may need more time to evacuate should evacuate from affected areas when Evacuation of the Elderly, Etc. (Alert Level 3) is issued.
